

Hyde Commons WaterBlitz

Sunday 2nd July 2017

Join us find clean water on the New Forest's western commons

Meet at 10am for a 2 hour walk and help us test as many different ponds, streams and ditches on the west of the forest, using our quick and simple Clean Water test kits. Are all the waters clean, or is there some pollution?

This is one of a series of **free** events we are running every weekend throughout July. Visit our website www.freshwaterhabitats.org.uk for more information.

Places are limited so please get in touch to book a place:
